RADIO NEWS INDEX

VOLUME XIX, NUMBER 1 — July, 1937

	Page
Index for January to June 1937 issues	5
Television Advances (RCA Empire State Transmitter)	7
Symposium on Inter-Office Call Systems	10
Using an Oscilloscope in Auto-Radio Servicing	13
How to Build a V.T. Voltmeter	14
Opportunities for Television Operators	15
Designing Resistance-Coupled Amplifiers (Part 2)	16
Pre-Amplifier for P.A. and Ham Work	18
P.A. Equipment for the Summer Market	19
The "Ham Shack" (Erecting Antennas)	20
Bishop 5-Meter Converter	22
Special DX Antennas	23
Testing RCA model ACT-20 Ham Transmitter	24
S.W. Station List (Americas, West Indies and Europe)	25
A "Closet-Door" Work Bench	33
The Radio Workshop	34
The Radio Beginner (Test Oscillator) Part 12	36
Revised Don Lee Circuit	51

VOLUME XIX, NUMBER 2 — August, 1937

Hard-to-Get Tube Data	71
Receiving Tube Charts	73
Automatic Ship-to-Shore Radiophone	77
Tube Base Chart	78
Transmitting Tube Charts	80
Receiving Tubes in Transmitters	82
Description of Scott "Philharmonic" Receiver	83
Radio Balloons Report Weather Facts	84
"Robot" Receiver for Cargo Vessels	85
Servicing Movie Sound (Part 1)	87
How to Build a V.T. Voltmeter (Part 2)	88
Kelley Push-Pull D.C. Amplifier	89
The "Ham Shack" (Antenna Relays)	90
Harvey Mobile UHX10 Transmitter	91
Crystal Control 10-20 M. one kw. transmitter (Part1)	92
The Radio Workshop	94
S.W. Station List (Africa, Asia, and Oceania)	101

VOLUME XIX, NUMBER 3 — September, 1937

Starting a Service Career	135
Symposium on Midget Cathode-Ray Oscilloscopes	138
Servicing Movie Sound (Part 2)	142
RCA Demonstrates Big-Screen Television	143
The "Ham Shack" (10-160 Meter Transmitter)	144
Description of Patterson PR-15 Receiver	145
Crystal Control 10-20 M. one kw. transmitter (Part 2)	146
Jarnak Acoustical Headphone Labyrinth	149
Operating Tests on RCA model ACR-111 Receiver	151
The "Tiny Tot" Super-Regen Receiver	152
The Radio Beginner (A Superhet Tuner) Part 13	154
Air Programs Recorded	155
The Radio Workshop	156
Description of Scott "Philharmonic" Receiver (Part 2)	157
How to Build the 3-Band "Cruiser" Receiver	158

VOLUME XIX, NUMBER 4 — October, 1937

	Page
New Broadcasting Stations	199
Building the Pocket Sportset	202
Television Range Extended	203
The Radio Beginner (Part 14) (A.C.-D.C. Set)	204
Electronic Signal Mixer	205
The "Ham Shack" (Operating the All-Band Transmitter)	206
5-Meter U-Beam Antenna	207
Crystal Control 10-20 m. one kw. transmitter (Part 3)	208
10-160 Meter Transmitter (Montgomery Ward model OR-5)	211
The Radio Workshop	212
Design Features of the Silver Masterpiece VI Receiver	213
The "Tiny Tot" Portable Mobile Transmitter	214
Inter-Office System Layouts	215
Wien Bridge Frequency Meter	218
Servicing Movie Sound (Part 3)	219
Testing the Scott "Philharmonic" Receiver (Part 3)	220
Broadcast Station List (Asia, Africa, Australia)	221

VOLUME XIX, NUMBER 5 — November, 1937

ABC's of Antenna Design (Part 1)	263
U.H.F. Beam Antennas	266
A Black-Light Burglar Alarm	268
The Radio Voter (Dr. N. M. Hopkins device)	269
Building the Meissner Communication 14 Receiver (Part 1)	270
Building a Neon-Tube Audio Oscillator	274
Mobile Sound Systems	275
Servicing Movie Sound (Part 4)	276
Description of Midwest VT-20 Receiver	277
The "Ham Shack" (Choosing A Crystal Oscillator)	278
Super with a Full-Vision Tuning Dial (National NC80X)	279
Hallicrafter's "Skyrider" 11-Tube Receiver	280
Testing 10-160 M. Transmitter (Montgomery Ward OR5 Part 2)	281
Installing the "Tiny Tot" Mobile Rig	282
Crystal Control 10-20 M. one kw. transmitter (Part 4)	284
Design Features of the Silver Masterpiece VI Receiver (Part 2)	285
The Latest "Super-Pro" for the Home (Hammarlund Console)	290

VOLUME XIX, NUMBER 6 — December, 1937

How Soon Television?	327
Checking the Midwest VT-20 Receiver	329
The Latest Trends in Push-Button Tuning	330
Calibration of Test Oscillators	334
Kelley D.C. Amplifier with Inverse Feedback	336
Servicing Movie Sound (Part 5)	338
Learning the Code	339
The "Ham Shack" (Curing BCL Interference)	340
Voltage Supply for the Velotron Microphone	341
"J" Antennas for the Ultra-High Frequencies	342
Test Report on Meissner Communication "14" Receiver (Part 2)	344
The R.N. Progressive Transmitter (Part 1)	345
Checking the Silver "Masterpiece" VI Receiver	347
R.N. "Skipper" TRF set for 2-Volt Tubes	348
Direct-Reading Modulation Meter (JMP model AM1)	349
Air-Testing Hallicrafter's Super-Skyrider	354
Vehicle Speaker Requirements	378
